Application : Self order kiosk terminal at QSR.
Model : SK4, SK1-211/311

Application : Receipt / label printing at Smart locker
**Model : SK1-211/311, SK1-41**

Application : Check In / Ticketing kiosk terminal
Model : SK1-211/311, SK5-31

Application : Receipt printing in Gas pump
**Model : SK1-211/311**

Why Kiosk printers?

Most of the Kiosk applications are non-personnel attendant (unmanned) systems, which require 24/7 operation without maintenance. In order to meet such requirement, our Kiosk printers are ready to work for the purpose with the following solutions, which are not available with conventional POS printers.
- A large paper roll capability (Max. 250mm diameter) to minimize a paper roll fulfillment
- Presenter and Bezel options to eliminate a paper jam
And a large flexibility of a paper roll installation position helps to expand a flexibility of designing entire Kiosk systems.

How presenter option works? Please watch a video.
